

## Partner Task 1

---

Points: \_\_\_\_ out of a max of 25

names:

Task 1: Personalized hello

Write a program that does the following in the order specified:

1. Ask for the last name of a person
2. Ask for the first name
3. Print out "Hello, Firstname Lastname"

Here's an example:

```
>>> Enter your last name:Franklin
Enter your first name:Emma
Hello Emma Franklin
>>>
```
