

Partner Task 0: Scratch

This task is to be done with one partner. You are to write a Scratch app. Here are the requirements

1. The app must be your work - you should not simply work through a tutorial. You need to write the app from scratch.
2. The stage background needs to be a picture (either something you already have or downloaded from a website. (5XP)
3. You need to have 2 animated sprites. At least one of them needs to be created from a picture. (10XP)
4. You need to use a conditional construct or event. (5-10XP)
5. Your app should have some sound or music (5-10XP)
6. Up to 20XP more for going above and beyond these requirements

Some possibilities:

a short music video

a simple game

a story
